

€10.80: a new amount that will make
...all the difference!

The value of the voucher is at the discretion of the individual employer, and there is no obligation for them to increase this to the new maximum of €10.80.

By offering meal vouchers the employer is offering a benefit that will have a direct impact on their employees' buying power. This product is 100% deductible for the company, which also benefits from a social security exemption, and is an excellent motivational tool that can be combined with the Gift Pass (by Sodexo) to encourage and recognise employee performance.

Information and advice on recognition in the workplace can be found in the Sodexo Benefits and Rewards Services Luxembourg articles on the issue.

QUALITY OF LIFE SERVICES

Since there is more to motivating employees than salary alone, these sorts of benefits can build a real sense of loyalty and encourage employee engagement. Employees particularly appreciate being recognised for what they do, and giving them the opportunity to choose their own reward is the best way to meet their expectations and strengthen their sense of engagement.
